# EASY REPORTER

A comprehensive HCM reporting solution for On-Premise, Hybrid and Cloud

**spinifexIT**

[www.SpinifexIT.com](http://www.SpinifexIT.com)

## INTRODUCTION

Easy Reporter is a simple and cost-effective reporting solution that provides access to on-premise SAP HCM data as well as SuccessFactors Employee Central, Recruiting fields, third-party sources and more.

You can even take advantage of the best-in-class reporting features that SpinifexIT is known for Like advanced calculations and logic, interface creation and automated distribution to create the most robust and meaningful HCM reports.

### ON-PREMISE

Easy Reporter is used by thousands of on-premise users around the world every day. Companies of all sizes trust SpinifexIT to produce more effective HR reports, analyses and interfaces.

### HYBRID

Reporting from hybrid landscapes requires the ability to easily consolidate data from both cloud and on-premise systems. Easy Reporter provides the necessary tools to perform HCM reporting, payroll reconciliation reporting, data interfaces and more without costly programming or integrations.

### FULL CLOUD

Full cloud customers leverage Easy Reporter to integrate, interface and combine data from different sources to meet the need for consolidated, real-time reporting across their cloud landscape. Reports can even be launched directly from SuccessFactors to create a seamless user experience. SpinifexIT solutions help customers maximize.

## What happens when you use Easy Reporter

Reporting for on-premise, hybrid or cloud

Access your reports anywhere

Create comprehensive interface files

Leverage over 150 pre-written reports

Perform advanced calculations

Schedule and email reports

Easy Reporter is an SAP-certified reporting solution that combines real-time access to SAP HCM and payroll data and results with access to SuccessFactors Employee Central, Recruiting, third party data and more.

Easy Reporter's drag-and-drop interface allows users to easily access HR and payroll data and results that other query tools don't – without custom programming or integration.

## Build, test & distribute reports

Easy Reporter's intuitive user interface allows you to create reports and interface files without any programming or technical knowledge. Easy-to-use calculation, filtering and distribution features reduce report creation time by up to 80%.

Easy Reporter provides comprehensive reporting access to your most important data, including:

HCM master data • Payroll results • Time and leave data  
Payroll posting data • Organizational management • Payroll tax data and results • SuccessFactors data • Third-party data files

**80%**  
**FASTER**
