## ABOUT STRATO

Create and send employee lifecycle documents and correspondence with an easy-to-use, cloud-based solution that lets you automate your core HR processes and store your documents securely. Optimize your document generation process and improve your employee & candidate experience with Strato Documents.

## 100% INTEGRATED

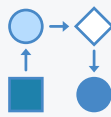

Strato Documents is 100% integrated with SAP SuccessFactors. It can fetch real-time data from SuccessFactors Employee Central and can be extended to include additional modules such as Recruiting, Talent, Performance and Goals, Employee Central Payroll and SAP On-Premise.

### DESIGN

Simple tools help you design documents and correspondence fast.

Build a document template once and generate multiple versions with the use of conditional logic, filters, automatic translations, and reusable sections that significantly cut the time spent on document creation.

### AUTOMATE

Initiate the creation, generation and storage of documents and correspondence using SuccessFactors triggers and smart workflows. Build a fully integrated document generation process that automatically issues the right documents for Applicant's first contact to an Employee's end of service.

### APPROVE & SIGN

Route documents for review, approval, rejection and signature placement with a single click. Optimize inter-dependent processes such as the issuance of Job Offer Letters and Employee Movements by creating an approval path that integrate across all your Employee Lifecycle sequences.

### STORE

Automatically store generated documents and employee-uploaded content within SuccessFactors or through a secure integrated server that gives you and your organization the power to access your documents anytime, anywhere, fast!

## Strato Documents supports your Employee's HR Lifecycle

## Go beyond standard Document Generation

Build your ideal HR workflows within Strato Documents, activate 3rd party Digital Signature integrations, select your document storage preference, assign custom Data Sources, and take advantage of hundreds of features built to empower your HR team to improve your Candidate and Employee experience.

## What makes Strato Documents special?

- Massive Time & Cost Savings
- Process Acceleration
- Increased Security & Compliance
- Document Accessibility
- Improved Employee Experience

Accelerate your overall Recruitment & Core HR processes and improve your Employee Experience with an easy-to-use cloud-based solution for all your Document Generation needs. Supercharge your employee communications and engagement strategy with Strato Documents.
